

RISK ASSESSMENT SEPT 2022

We consider this to be a low risk walk as we have a high ratio of adults and the walk is very familiar to the children as they walk it every week.

POTENTIAL HAZARD	WHO IS AT RISK	EXISTING MEASURES	PREVENTATIVE MEASURES	CHECKED	FREQUENCY	SIGNED
CHILDREN RUNNING ONTO ROADS	Children, drivers and adult helpers.	All children wear yellow high visibility jackets all helpers wear orange hi vis jackets. Children all have partners and younger children are paired with an adult or an older child. Children are taught how to walk safely and to stop at every lamppost. Ratio min 1:8 , sometimes higher in the autumn term to accommodate new EYFS children.	Younger children kept on the inside edge of the pavement. Children hold hands. We walk slowly and stop at each lamp post. We talk about road safety and we regularly prompt the children while they are walking. Adults are spread along the line of children. First aid bag, phone, register and parents numbers always carried in the rucksack.	Francesca Giani	Reviewed termly when we have new children. Sept 2022 Jan 2023 July 2023	F. Giani F.Giani
CARS TURNING AND REVERSING ON GREYFRIARS ROAD	Children, drivers and adult helpers.	Adult helpers are made aware of where cars might turn and any danger points. Adults check all drives and roads before crossing.	Adult helpers are made aware of where cars might turn and any danger points. Adults check all drives and roads before crossing.	Termly or when we have new children.		
CHILDREN CROSSING BELLE VUE ROAD	Children, drivers and adult helpers.	Adults check the road. Children are taught to stop and not move until two adults have stopped the traffic and given a signal to cross.	Adults check the road. Children are taught to stop and not move until two adults have stopped the traffic and given a signal to cross.	Termly or when we have new children.		
CHILDREN AND ADULTS BUMPING INTO WHEELIE BINS OR TREADING IN ANIMAL FAECES.	Children, drivers and adult helpers.	One adult walks ahead to ensure there are no obstacles. If there are obstacles the adult stops the children, then moves the obstacle. First aid bag, phone, register and parents numbers always carried in the rucksack. There are also poo bags in the leader's rucksack.	One adult walks ahead to ensure there are no obstacles. If there are obstacles the adult stops the children, then moves the obstacle. First aid bag, phone, register and parents numbers always carried in the rucksack. There are also poo bags in the leaders rucksack.	Termly or when we have new children.		
CROWDED PAVEMENT	Children, drivers and adult helpers.	We leave after the school rush , so by the time we start walking the pavement is usually clear.	We leave after the school rush , so by the time we start walking the pavement is usually clear.
